HOW TO FIND YOUR MEDICARE CCN

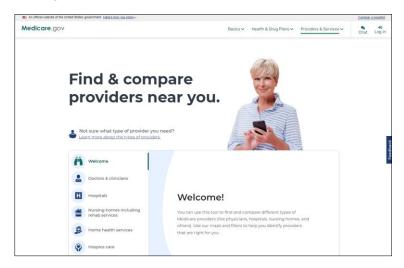

What is the CCN?

The Centers for Medicare & Medicaid Services Certification Number (CCN) replaces the term Medicare Provider Number, Medicare Identification Number, or OSCAR Number.

The CCN is used to verify Medicare/Medicaid certification for survey and certification, assessment-related activities, and communications. The RO assigns the CCN and maintains adequate controls. This number is associated with every hospice, home health, and skilled nursing home for public quality reporting.

How can I find the CCN manually?

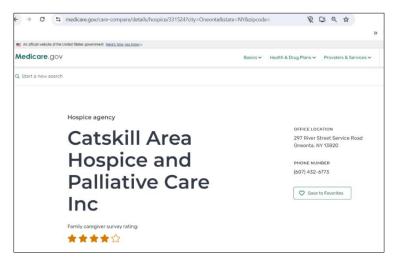

1. Go to the <u>Care Compare</u> webpage and select your provider type (home health, hospice, skilled nursing home).

2. Type in your organization's name, address, or a combination to find your provider page.

3. Click on your organization page.
