

2016 Medication Management Solutions Selection Matrix

Disclaimer

The information included in this paper is meant to assist care providers in the understanding and selection of medication management solutions, but cannot possibly include all systems that may be available. Products mentioned in this paper serve as illustrative examples. Information about the functionalities and capabilities for this effort were provided by participating vendors of medication management solutions. A few medication management technologies vendors chose not to participate. Functionalities and capabilities of listed medication management products have not been verified, tested, independently evaluated or endorsed by LeadingAge or LeadingAge CAST. Please use this as general guidelines in understanding functionalities and examples of current medication management systems. The Medication Management Selection Matrix may help providers identify potential medication management solutions that may meet their requirements, and is intended to help them target vendors to submit a Request for Proposal (RFP). Where appropriate, provider case studies were identified and published separately. However, providers are strongly advised to verify functionalities of the medication management solutions prior to final selection through demonstrations, site visits, reference checking and other due diligence steps.

Solution Applicability

	Ordering/Prescribing					Order/ Prescription Communication				Dispensing Pharmacy (including internal LTPAC Pharmacies)									Administration to/Adherence of the Patient/Resident/ Client			
	Complete EHR	Computerized Physician Order Entry (CPOE) Software	E-Prescribing Software	Medication Management Clinical Decision Support System	Other (Please specify)	Medication Order Management System	HIE-based Medication Management Clinical Decision Support System	Telepharmacy	Other (Please Specify)	Pharmacist EHR	Consulting Pharmacist Software	Pharmacist Clinical Decision Support System	Pharmacy Management System	Compounding Software	Packaging	Robotic Dispensing and Carousels	Pharmacy Kiosk	Other (Please Specify)	Medication Administration Verification Software (eMAR, eTAR, Closed-Loop Verification)	Medication Reminder Systems	Personal Medication Dispenser	Other (Please Specify)
